PERSONAL SKILLS

- MUSIC (yes. music skill.)
- SELF-MOTIVATED
- FAST LEARNING
- HOBBIES
- TEAM WORK

LANGUAGES

- ENGLISH
- POLISH
- SPANISH si

PROFILE

I'm a programmer from Wroclaw, Poland. My career path is just beginning but I'd be lying if I said I'm new to development. Most of my works are websites I wrote for charities and conventions (with all graphic things). I also write desktop & android apps (usually in Java or C#) and some games (in Unity). When I have some free time that I can waste I'm trying to write some lyrics for my songs. I'm vocalist (of course). And guitarist too.

EDUCATION

1 College / SEP 2018 - Current
Dolnośląska Szkoła Wyższa: Computer Science

2 High School Diploma / SEP 2015 - APR 2018
Liceum Ogólnokształcące Nr 5: Math, Physics and IT

WORK EXPERIENCE

1 JWW sp. z. o. o. (part-time) / DEC 2016 - Current
Coordinator of tasks related to the IT area: JWW is company that provided accounting services. They offer comprehensive support in registration and launching a business in Poland. I work there as an IT specialist, which means that I deal with everything that is related with IT from small things like repairing electronic equipment to building a company's computer network. That's only a part-time job so...

PROJECTS

1 Games / 2014 – Current
Unity/C# Dev: Basically every game I've ever made on my own. I belong to the science club TK Games. All of my project you can find on my website or github repositories.

2 Mat-Fiz Calculator / JAN 2017 – OCT 2017
C# Development: Project I made for my school. I mean – we build it because me and my classmates need a calculator that in simplest way could calculate everything we needs on math lessons to calculate.

3 Charity Concert "Four Moon" / JULY 2017 - SEP 2017
Web Development: This project was created for Charity Concert "Four Moon". This is a website with photo gallery on it and a few information. All of work - hosting and building the website was done by myself. http://koncert20170909.h2g.pl/

COURSES

1 Udemy / 2016
Unity Development: Online course

2 Udemy / 2017
Android Development: Online course

3 Udemy / 2018
Java Development: Online course
